Chisinau (Moldova).

About me

I have experience in creating website layouts, where I honed my HTML, CSS and JavaScript skills. However, I want to grow and I think it would be more effective for me to become a member of a friendly team as a Frontend Developer.
I have studied React, Javascript, HTML, CSS and am currently mastering TypeScript. In my free time I love to learn new technologies, create pet projects, play the guitar and go to the gym.
I'm ready to work, learn, get better and grow every day with great people.
